Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Flu do Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Ingiaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

SKILLED LABOUR.

A rather amusing correspondence between Mr. Sarmiento, the new Superintendent of Education, and Dr. Pizarro, Minister of Public Instruction, ou the creation of a School of Mechanical Arts, relieves the political monotony of the papers, and for those who have spare time we recommend its close perusal. For the ordinary reading public however, the letters in question are too long, and therefore we shall epitomise the quarrel.

Mr. Sarmiento, who has given up, the charge of the Provincial Educational Department, has been named Chief of the new National School Department, under the title of Superintendent, which post he has accepted, yet hardly has he assumed office when, in a very powerful and argumentative note, he informs the Minister that the Government has made a great blunder in proposing to start a school of 'artes y oficios,' it being utterly unnecessary in a country such as this, and that what the country far more needs, and which he is willing to organize, is an Agricultural School. Mr. Sarmiento enriches his communication with his own varied experiences and with extracts from laws of the United States, and, in fact, his letter is so conclusive and so strong, that the interest one feels in the school question merges into interest in what possible answer the Minister can make; but Dr. Pizarro has given Mr. Sarmiento a most perfect rejoinder, and rebuts all his objections. He says that a school of arts possesses varied branches, and that in the most populous nations technical schools of arts are established. At Cluses they have a watchmakers' school; at Lyons they have a silk-weaving school; at Chalons and Aix-la-Chapelle also they have schools of art and oficios, and that in the creation of a school of such vast ramification it is difficult for the Government to specify everything: but the President wishes the school started, and it is not for the Superintendent to object.

The Goverament, in ordering the creation of this school, had in view the immense extent of this country, its rich variety of products, which offer daily such a stimulus to foreign immigration and the constant export of the raw staple to foreign manufacturers, when many of those articles might be made here; and it is considering these matters, and that we are now entering upon a new departure in this country, and a new development of its industrial resources, that the Government has determined on the creation of this school which the Superintendent has thought proper to oppose. The Minister says that the present state of our population is deplorable, and such that the very railway which the Government builds at such cost, it is unable to preserve or keep in decent repair, everything being in the hands and under the tools of the foreigners. Excepting the Buenos Ayres Western Railway, which is Provincial property, all the railways in the country are for skilled labour in the hands of foreigners, and the Minister wants to know why Argentine mechanics are not to be found in any of the workshops of Argentine railways. We suppose because Argentines prefer other walks in life than the sledge, the hammer and the lathe. The Minister draws a truly melancholy picture of his countrymen. He says—

"There stands the Argentine with his arms crossed in the prnsence of the disaster which his ignorance has created. Dumb, silent, ignorant of the world around him, he starves, possibly thinking bicterly of his poor little family. There is no opening left him to support that family, save the highway of crime, whilst the 'estrangero,' due to his early home training in Europe, is able honestly to earn his bread by the sweat of his brow."

This is a truly dreadful picture which H.E. draws, and which he concludes by asking, 'is the nation for ever to be beholden to foreign skilled labour?' The Government, therefore, repels Mr. Sarmiento's views, and considers the establishment of the school in question one of the greatest of all political necessities, and the Minister requests Mr. Sormients to at once set about organizing the School of Arts, which the decree in question provides for.

RAILWAY GUARANTEES.

With much satisfaction we make room for the following able article on the Government guarantee to railways: it answers many points which are familiar to our columns, and proves pretty clearly that if with some of the guaranteed railways the Government is behindhand, the fault rests rather with the political vicissitudes of the country than any negligence or unwillingness on the part of the Argentine Government to meet punctually such obligations.

The paper at foot we extract from one of our London colleagues, and it will be read with much satisfaction by Argentines, showing as it does, that in that great market there are not wanting good friends to stand up for the credit and good faith of the Argentine Republic:—

We have great satisfaction in giving a prominent place to the following valuable contribution, by a well-informed correspondent, on a subject which at present attracts a large share of public attention in this country. Our readers, we are certain, will anticipate his further communications with merited interest: —

So much has been said of late against the Argentine Government on the ground that it has neglected to pay its engagements to the railway companies formed with a guarateed interest of 7 per cent. on their capital that we now propose to deal with this matter, bringing before our readers such information as we may be able to gather, from the statements of the respective English companies as well as from the official publications of the Argentine Government. The public will thus be in a position to form its own judgment, and this, we have not the least doubt, will, on this head, tend to modify its impressions towards the Argentine Government, which it appears, has done and is doing its utmost to pay all outstanding claims.

As the space at our disposal does not admit of our effectively dealing with the whole subject in a single article, we will limit our remarks for the present to a consideration of the guarantee accounts of the Government with the Central Argentine Railway.

According to the original concession, granted to this company, the Argentine Government guaranteed 7 per cent. on £ 1,575,087, being at the rate of £ 6,400 per mile (say, net earnings £ 110,256 per year). The line, partially opened to traffic in 1870, was concluded in 1873, but only officially opened in 1876. By the terms of the concession 55 per cent. of the gross earnings were to be considered as net earnings; a gross traffic earning of £, 201,000 was thus only required to release the Government from further responsibility. This was, however, subsequently modified. In the first place, in 1864, the Government liberally agreed to accept the actual and legitimate working expenses of the line; afterwards, in 1868, it was mutually arranged between the Government and the company that a fixed proportion of 53 per cent. of the gross earnings should be taken as working expenses; and, finally, in 1870, the Government was again induced to accept tho actual working expenses of the line.

This extraordinary liberality of the Argentine Government has caused much dissatisfaction in the republic, the result, it is asserted, having been to swell the working expenses, so that, instead of the 45 per cent. as fixed in the concession, they have risen to so high a figure as 62 per cent. Had the Argentine Government insisted in maintaining the fixed proportion of 45 per cent., as in the concession, the state of affairs would have been quite different. The Argentine Government would have long since been exempt from paying any subsidy to the company, and the latter, forced to suppress all extravagant expenses, would doubtless have at the same time stood in no worse position.

The Company has, it should be observed, increased its capital to £1,900,000, and, the guarantee being limited to £ 1,575,087, the original shareholders have of course had to suffer on account of this augmented expenditure, which, to a very great extent, might have been avoided. The following statement of accounts will show how the Argentine Government has discharged its obligations to the Central Argentine Railway: —

Surplus Revenue for 1874/75 reimbursed to the Government				160324

We have preferred to leave this statement open, as there are two accounts which we have not been able to obtain, and which we think will probably balance the accounts up to this date. We refer to the claims of the Argentine Government on the company and to the result of last year's traffic.

As to the claims on the company, they amount to about 150,000 dols. (£ 30,000), being value of works done, and charged by the company as ordinary expenses (for repairs), but, in fact, an improvement which the Government thinks ought to be added to the capital account, and not to be regarded as working expenses. This, we presume, will not be disputed by the company. The other item, corresponding to last year's traffic, will, we believe, result in a small surplus in favour of the Government rather than against it, having in view the very considerable increase of earnings during the last six months.

Anyone looking on the statement we now publish will, we are convinced, consider (as we have often remarked) that the outcry against the Argentine Government is, so far at least as the Central Argentine Railway Company is concerned, greatly exaggerated. No one who has any knowledge of that country will ignore the difficulties under which the late Government laboured for three consecutive years: a crisis never before experienced in that country, and which, according to all authorities in the matter, was simply the consequence of a very sudden inflation in trade and febrile activity in every imaginable form of industry and speculation. The fact that the revenues of the country increased 200 per cent. in a period of six years will account for this. The Government, under such trying circumstances, endeavoured to fulfil all its engagements, giving loyal preference to all foreign claims. Its prior care was always to meet, with rare punctuality, the interest and sinking funds of the London loans, and as this has been considered an unjust preference in favour of one creditor against another, we will in another issue say a few words to explain the Government views on this subject and the impossibility of its acting otherwise. It should be remembered that when the country was buoyant in wealth the railway companies were also doing well, and two of them, the Campaña and East Argentine, did not exist. The last commenced operations in 1875, and the result proved a complete failure, the line not earning enough to pay the working expenses. The Government was taken suddenly by surprise, and this in the midst of a comercial crisis that had reduced its revenue to one half, rendering it utterly impossible to provide for unexpected charges.

The Argentine Government never repudiated its obligations, but only asked for time, in order to restore the proper equilibrium in its Treasury, so very much disturbed on account of the violent crisis in which the country was so unexpectedly involved in 1875, That the Government meant to do what is right was soon recognised by those who followed with any interest its movements, for in two years the expenditure was reduced by 50 per cent., thus permitting the punctual payment of the London loans, and stultifying the predictions of several London papers which professed to disbelieve the real facts, until light has so profusely illuminated the minds of hostile critics, that they can no longer presume to question the financial stability of the Argentine nation.

DR. ROACH IN DOLORES.

The Governor-elect's trip through the camp has been one series of ovations; the people rushing from all sides to welcome him. These trips are making him the most popular man in the Province of Buenos Aires. The *Patria* of Dolores gives the following account of his reception in that thriving camp town.

Dr Rocha arrived here yesterday, accompanied by the following gentlemen.

D Damaso Centeno, Gil. Heredia, J Hernandez, M Cardoso, B Hueyo, H Miguens, G J Casal, P Fernandez O Schneider, P Bernet, C Vega, A. Segin, M Gimenez, C Orma, C Davis, S Maldonado, M Castañeda, I Hernet, Darquier, and 20 more gentlemen, the names of whom we forget.

The band of the 7th of the Line enlivened the train, whilst at 4 p.m. the popular manifestation advanced to welcome the distinguished visitor. As the human mass approached the station the Governor was vociferously cheered. Seven hundred people assembled in the station, and we remarked several foreign clubs present, amongst others the Stella del Sud, Unione Italiana, Filantropica Francesa, Socorros Mutuos, Sociedad Beneficencia Española &c.

When the Governor descended from the train all the bands began to play, crackers went off, and the station shook under thunders of applause. After the friendly greetings of the first few minutes the manifestation was duly organized, and passed with Dr Rocha through the Calle Buenos Ayres to that of Estados Unidos, turning down by Calle Montevideo and stopping in front of Deputy Recavarren's house, where the Governor-elect took up his quarters. The thousands of people around pressed together to hear Dr Rocha speak.

Dr Rocha thanked the citizens warmly for this hearty ovation, expressing the hope that all Argentines would unite as simultaneously as the inhabitants of Dolores, regardless of nationality. Here the cheers of the crowd impeded the talented orator from continuing his speech.

Mr Pilotto, in the name of Dolores, thanked Dr Rocha for his kind expressions and hoping that his wishes would be fulfilled. Then the crowd turned and stopped in front of our printing-office, loudly cheering Dr Rocha and the editor of the *Patria*, who had been the first to proclaim Dr Rocha candidate for the Governorship of B. Aires.

Meantime the principal families of Dolores met at Dr Rocha's quarters and remained until the late hours of the night.

The *La Patria*, whilst dwelling on these official trios, very ably states that the object of Dr Rocha is to well consider the wants of every district under his jurisdiction; he can thus observe the condition of our camps and of our camp towns, meditate on the causes which paralyze the progress of many, and find out the remedies necessary to throw new life into them.

Every trip of the Governor-elect is a further guarantee of his good-will to help the province and make his administration one of the most successful and fruitful in the records of the country. And wherever he has turned his footsteps he has been welcomed with receptions and ovations, which only two well betoken the anticipations of the camp people, who appeal to a Government which has at last reached the turning point, and will mainly diffuse action in the camp.

EDITOR'S TABLE.

The French mail steamer Congo sailed at 7 a.m. to-day There was a full breeze, and the tender pitched and rolled famously on her run to the Outer Roads. A crowd of friends accompanied Mr Rouvier, ex-Chargè d'Affaires of France, to the mole, and many went on board with him; he goes to Rio Janeiro as Secretary of Legation.

All the Rio Negro landlords drank Baron Rothschild's health half a dozen times yesterday, hoping that his shadow may never be less, and that he may not be the Last of the Barons who will turn their financial eyes on this country. The fact of the Rothschilds having taken this country up, and on such a scale, gives it in a jump a status in Europe which very few of our Argentine friends can measure correctly. We see some rumours in the European papers of Spain being allowed to resume her place amongst the Great Powers (for auld lang syne's sake we suppose). In a few years more this Republic will have a far stronger claim to such a rank.

The Drought is becoming the topic of the day, and a rather unpleasant one it is. Many people think that there will be no rain worth speaking of till Jupiter and Saturn have saluted each other 'con toda consideracion' on the 18th prox. The *Standard* barometer shows no sign of relenting, and is still in the dryest of moods.

Buenos-Ayreans seem to think that they have a vested right in all the big prizes of all the lotteries under the sun. Be it drawn in Madrid, Montevideo, Havana, Rio, or anywhere else, there is always a rumour that 'el grande' has fallen to Buenos Ayres. The usual report was circulated about the big prize in the recent San Paulo Lottery, £100,000, but it was all nonsense. Half of it fell to a party of seven people in Pelotas, amongst whom were two shoemakers, a lady, three female slaves and a small boy. It is not yet known who won the other half.

One of the 'sights' of Buenos Ayres is Baltar and Quesada's rejuvenated auction mart. It is impossible to recognise the old ramshackle premises in the magnificent accommodation this enterprising and most successful firm have provided for their customers, at an enormous outlay. It may be doubted if any European city possesses an establishment of the kind in any way superior to that in Calle San Martin. Visitors to the capital of the Republic should not leave it without visiting this splendid mart, where the golden links of the prosperity of this country are weekly, nay daily, welded under Messrs B. & Q.'s hammer. Live Stock is the backbone of this country, and its Head Quarters are in Calle San Martin.

Don Emilio Civit, the talented Under Secretary of Finance, left yesterday for Mendoza. We regret to say that he goes to seek a restoration of his health, which has been somewhat impaired by overwork. We trust to see him as well as ever when he returns.

It has been frequently said of late that 'poor Paraguay' is coming round rapidly. We should rather think it is. Last year the births were 69 per cent, from 15th Jan. to 30th Nov, 10½ months, the excess of boys born being 40 p cent over the females. This is something like 'coming round,' and the ladies of Paraguay deserve well of their country,

Dr Roach, Governor-elect, has been received in the South with unusual enthusiasm, even for this land of 'entusiasmo frenetico. At all the stations on the Southern Railway, where he stopped on his way to Dolores, the people turned out 'en masse' to receive him, and Dolores was fairly turned inside out when he arrived there. A banquet, which is described as 'stupendous,' was given to him in the theatre there on Sunday night, and the house was packed with ladies and gentlemen. On Monday Dr Roach visited the famed Luro estancia, and yesterday he went to Ayacucho.

The distribution of prizes to the children of the Scotch Sunday School will take place on Sunday next, in the church, after morning service. The parents and friends of the pupils, and the pupils of the suburban Sunday Schools, with their parents and friends, are cordially invited to attend.

The Rev. James Smith will preach at the Livingstone estancia, Lobos district, on Monday next, at 11 o'clock a.m.

Henry O'Neill, the Irish artist, author of the superb volume 'The Ancient Crosses and Round Towers of Ireland,' has died at an advanced age, in great poverty, the Government having refused him a pension, although he well deserved it. Denis Florence McCarthy, the poet, has lost his son, a brilliant young man of 24, a poet, full of genius, and already noted for ability in the medical profession.

The following is good:—"When the new Governor of Bombay and his wife were returning from Mahableshawar, after the marriage of their daughter, they received a novel welcome from the people of Mahar, whose hearts were, no doubt, better than their English. The triumphal arch which had been erected bore the legend, 'Welcome, Lady James Fergusson, *Governess!*'

The Government of Tucuman has created a Statistical Bureau for that province. Good for Tucuman.

A new Catholic paper, edited by several clergymen, is announced to appear shortly.

A lady named Furriols was frightfully injured last week in Montevideo, by treading on a wax match, which ignited, and set fire to her clothes. People are far to careless about matches, always excepting ladies on the look out for a 'good match,'

A gentleman named Campos, living in Calle Venezuela, awoke on Monday morning $20,000 poorer than when he went to bed on the previous night. Door open. If people will be such fools as to sleep with their bedroom door open, they might at least take the precaution of locking up their money, jewellery, and clothes before tumbling into bed.

A gentleman named Ramos, who arrived in town on Monday evening by the last train from Chivilcoy, was accosted at the Parque Station by a well-dressed man in a state of great agitation, who said he wanted $1000 on the spot, and would leave his gold watch and chain and diamond ring as security till next morning, when he would gratefully return the loan. Mr R. gave the money and his address, and took the trinkets. Yesterday, while waiting for the borrower to call, he discovered that the watch and chain were of the best brass, the ring a pure sham instead of a pure diamond, and the whole lot worth about fifty paper dollars. $950 m/c gone.

Dr Caceres, Commissioner of the Cordoba Government to settle its boundary question with Buenos Ayres and Santa Fe, left yesterday for Cordoba, but will return in a few days.

Owing to the kindness of a leading American subscriber we are enabled to give our readers to-day the names of President Garfield's Cabinet, which will be found in our Special Telegram column.

The Spanish Minister, Sr Otin, is expected back here early next month.

A kind subscriber, anxious to allay the terrible alarm caused (especially at Lomas and Flores) by Mother Shipton's prophecy, which we published on Sunday, has sent us an extract from the *Queen*, in which the whole thing is shown to be a forgery. Mother Shipton was born in 1488, so could hardly have done much in the prophecy line in 1448. The prediction that the end of the world is to come this year fits beautifully with the fact that the play of 'The World,' at Drury Lane Theatre, is to be brought to an end during the present year. However, to guard against accidents, careful people should keep their affairs well in hand, make their wills, pay their newspaper subscriptions up to 31st December, &c, &c. It will be rather awkward for Mr. Edward Casey, as he only gets $50,000 per league cash for the Venado Tuerto lands for the first year, and if Mother S., or whoever the prophet is, should happen to be right after all, the venue will be changed, and he and the buyers may have to settle the matter before Chief Justices Minos and Rhadamantus.

Alexandre Dumas's latest dramatic effort La Princesse de Bagdad is so repulsively immoral that it was hissed off the stage pitilessly at the Comedie Francaise on the first night. This is something new from naughty and nice Paris.

The Madrid papers give currency to a report of some disagreement between the U. States and Chile, and that the former has sent three ironclads to Valparaiso to demand satisfaction for insults to American citizens and their flag. It is strange that nothing is known here of this news, which has rather a 'canard' flavour.

CAUTION TO THE PUBLIC

Marcos Paz, March 6th, 1881

Mr Edward T Mulhall

Dear Sir,

Mr James Murray of this neighbourhood, has requested me to write you respecting a paragraph which appeared in the Editors' Table of Sunday's *Standard*, in which is a woman styling herself Mrs Burt, who goes the rounds of the English houses in the city collecting alms, and states that 'her husband was killed by a fall from his horse while employed at the estancia of the above mentioned gentleman.

Mr Murray declares that the story is purely an invention of the supposed Mrs Burt, and that he never knew anybody of that name, nor has any such accident happened to any person on his establishment.

Trusting you will contradict the statement alluded to, and thus prevent the charitable public being 'gulled' by what may possibly be an unwortly object.

I remain yours truly

John J P Murphy

Although gold ruled very hard throughout the day prices gave way about 5 cents, and there was less stringency in the market than yesterday. It is the general opinion that the loan has been overspeculated upon, and that parties sold short who are now obliged to buy back. Until the accounts are even the bulls hold the market, but to day prices weakened owing to some of the h uses beginning to sell and the impression general that for the Trent the Western Railway will draw on Messrs Baring to carry on the extension works of the Western Railway to Pergamino. This exchange will bring on the market close on one million of patacones lying idle in the Bank vaults, and the business meets the views of the Board, as the negotiation of the National Railway Loan being on the eve of arrangement the Bank is not overanxious to have so much gold locked up in its vaults. Exchange moreover rules down, and it is a good time for the Western Board to draw; the probability is therefore that the business will be done, and at once.

Many parties applied at the National Government House to find out what truth there is in the news current about the Rothschild railway and land and colonisation scheme; the Minister ratifies the news and the form of proposal is now being drown up by the agent or representative here of the house of Rothschild.

Mr Naeff, of the eminent house of Zuberbuhler and Co., took leave of his friends on 'Change to-day; he sails for Europe in the Trent, and will remain in delightful old Zurich for four years. We wish him a pleasant voyage.

In our leading columns will be found a very able article taken from the London papers defending the Argentine Government on the very sore question of railway guarantees.

Shippers of River Plate produce to Liverpool may be glad to know that Mr Heyworth, of the firm of Heyworth, Hart and Co., will act as broker for the sale of produce; and that this gentleman has had much experience in the River Plate in receiving produce, having acted as 'reconocedor' in the Uruguay and Parana, and received several cargoes; such experience is invaluable.

The French packet Congo did not get away to-day, but sails to-morrow. It was blowing very fresh all day, and it is rather a convenience for the passengers that she has postponed her sailing.

Dean Dillon had an interview to-day with President Roca, and subsequently with Dr Del Viso, Minister of the Interior. He will probably leave on 12th April in Douro for Ireland. We cannot imagine the Argentine Government publishing a more popular decree than the nomination of this distinguished gentleman to the post of Argentine representative for emigration purposes in Ireland, and we have no doubt Dean Dillon's mission will lead to the most satisfactory results for both countries.

Mr Ferrari, the popular opera manager, was welcomed on 'Change; everyone was delighted to see him and learn from his lips that this winter Colon will boast of one of the best Opera Companies ever seen in the Plata.

The news about the Rothschild proposal, although by far the most interesting topic in the market, receives very little attention from our colleagues, and people looked into the papers this morning expecting to find the fullest particulars, but beyond what the *Libertad* gave last night and the *Standard* this morning there was nothing published. To our view it is by far the most momentous news we have had in this country for every many years. The splendid responsibility of the house making the offer, and the almost inexhaustible supply of our lands, make the business all the more possibly important. Our information on this subject does not altogether correspond with that of the *Libertad*. The house of Rothschild & Co. offers to build for the Argentine Government 800 miles of railway and receive in payment public lands, which they will colonise with emigrants. Those who have purchased from the National Government the Rio Negro lands at $10,000 m/c per league may consider their purchases as about the best business they ever did in their lives, and this affair of Rothschild is calculated to give increased value to all our lands, and give a completely new turn to affairs in this country. The National Government will no doubt make every possible effort to conclude a business which in less than 5 years would more than double our National Revenue, and we doubt if President Roca and his Ministers could sleep but night thinking of the full import of this magnificent scheme; we hope to-morrow to have fuller details. Spite of the great extent of Argentine territory, if this business is carried out, lands will at once become scarce, as even supposing that the Messrs Rothschild built their railway for £1,000 per mile, and we paid them in land at the rate of one thousand pats gold per leagues, still there would be a squeeze to make up so much land as the railway would call for. As for the Rio Negro land men, they will probably be able to rent their land for what it cost them to buy, and all our estancieros and others who have large stocks will do well to secure good sized estancias in time before the lands are all taken up. Thirty millions of patacones on colonies, eight hundred miles of new railways and five millions of new colonists form a programme for this country which fairly takes away our breath, and the news comes confirmed to us by the best official sources.

The London *Times* publishes the following:

"The following letter, which our correspondent heads "Boycotting in the City", revives a scandal in the wholesale drapery trade to which we drew attention some 2 or 3 years back. The remedy would seem to be a combination of the part wholesale and part retail traders, who should be sufficiently powerful by this time when acting together to render the action of their rivals futile:—

"Sir,—Permit me to draw your attention to an organisation for intimidation and "Boycotting" which exists, not in Ireland, but at home. This 'trades union' was established 2 or 3 years ago, to prevent wholesale houses which had, also, retail branches, from tendering for wholesale stocks. The mode in which the 'union' enforces its authority is usually this—

"Before tenders are opened on the day of sale, one or more of its representatives announce to the vendor or his agent, who must decide in his absence, that they will not lodge their tenders if any wholesale house with a retail counter is allowed to tender. This sudden challenge to the vendor, very much like that of the highwayman, 'Your purse or your life', like it, is too often successful Sometimes a strong and independent vendor resents the dictation, and the challengers get black-balled instead of the intended victims. Only recently a wholesale house of nearly half a century's standing was 'Boycotted' by this combination. The vendor invited a tender and sent a schedule of the stock, which the house, with the view of tendering, had valued; but before the day of sale arrived pressure was put upon him, so that he had to write and request to be permitted to withdraw his invitation.

"It seems to me, Sir, that such a state of things only requires to be brought to your notice to draw upon it your animadversion and reprobation, which, no doubt, would soon wipe out the scandal.

"I remain, Sir,

"Yours respectfully,

"*B A J.*

Campos especiales para invernada de animales o cria de ovejas, superfici 1920 cuadras, igual a una legua y un quinto. Tasacion total, campo y poblaciones, $1,920,000 m|c., estraordinariamente baja. Base de venta 2|3 partes—$1,280,000 m|c.

El Martes 15 de Marzo,
A las 4 de la tarde,

Procederemos a vender por orden y cuenta de su dueño, el magnifico establecimiento de campo situado en el partido de Cañuelas, distante solo 1½ legua del referido pueblo y 12 de Buenos Ayres.
El establecimiento es conocido por la 'La Noria' y creemos que es escusado entrar a hablar sobre la calidad de el como campo de pastoreo, pues son de todos conocidos los campos de Canuelas.
Las poblaciones de estancia la constituyen la principal denominada 'La Noria, que tiene un edificio de material de 5 piezas, otra para cocinera, otra para peones, una gran noria con una colosal bebida de material, la cual puede abastecer de agua a 4000 cabezas de ganado vacuno, ademas hay 13 puestos de material todos techos de teja Francesa y en perfectisimo stado.
El campo esta actualmente arrendado a arrendatarios que hace anos estan alli, los cuales pagan por puesto $12.000 anuales adelantados, y por la Noria $1i occ o que vienen a dar un arriendo de $170,000, pero como estos son adelantados y hay que calcular el interes respectivo resulta que estos se hacen $190,000, o sea el interes de mas de 1½ p|c mensual sobre la base de venta fijada. No hay pues, ni puede ofrecerse, oportunidad mejor para emplear un fuerte capital.
El arriendo que antecede es sin duda una buena informacion sobre la calidad de campo que se ofroce en venta, pues de suponer que solo por campo superior como este se obtienen tan buenos arriendo .
La tasacion practicada sube a $1000 m|c cuadra cuadrada, incluyendo poblaciones, tasacion infima, con relacion al valor que tiene en todo el partido y la base de venta son las 2|3 partes, es decir 636 pesos por cuadra de 150 x 130 vs. La venta se hara a razon de tanto la cuadra, .

La figura de este campo es la de un cuadrilongo perfecto, y los interesados pueden enviar por planos a nuestra casa.
CONDICIONES DE PAGO.
Siendo este negocio de alguna consideracion y pudiendo quiza ser para algunos un inconveniente no disponer por el momento de la cantidad necesaria, prevenimos que entregando una pequeña parte al contado, por el saldo se daran al comprador comodos y largos plazos.

DE

De las razas, vacuno, caballar y lanar
Del gran Establecimiento
BLANDENGUES
Partido de Chascomus
Sobre la via ferrea del Sud
TREN ESPRESO IDA Y VUELTA
Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.
Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiente mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, pueden hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso.
El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.
Todos los criadores de la Republica saben que alli no se han encomirado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.
Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.
En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental o Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este ramate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.
Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publi ca y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais o importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

LATEST FROM ROSARIO.

(From our own Correspondent.)

I have often thought it strange how such cosmopolitan towns as B. Aires and Rosario should have been infected to such an extent with the Carnival frenzy. The saturnalia is very little known in other parts of South America. The Chilian Carnival is the three days dedicated to the celebration of the anniversary of Independence, the 17th, 18th and 19th of September, during which time license is almost unlimited. But our River Plate Carnival is 'sui generis;' I have seen nothing like it in any part of Latin America. How did this 'pomitc' mania originate? And how did the happy inventor manage to lead a whole nation by the nose to such an extent that children and old men, young maids, old maids and matrons, all classes of society, consider it a social necessity to squirt scented? water, during three days and nights, into each others' faces?

The 'pomito' statistics give one hundred thousand dozeu as having been received at our Custom-house. Probably about a third of these has been remitted to the provinces, leaving in Rosario a stock equal to two dozen for each man, woman and child in town. We may put the average price that the consumer pays at 80 cents. gold per dozen. Thus we have upwards of fifty thousand dollars spent during Carnival in 'pomitos' alone. Even if we consider that a large surplus may remain unsold, let us take half of the above amount, which would be an exclusively moderate calculation, and we have twenty-five thousand gold dollars thrown away in this senseless though enlivening diversion.

The comparsas this year were really good and in great numbers, and most of them dressed very nattily. We had also two vasura vans filled with damsels, one of which came to grief and spilt its fair contents, The only serious accidents I have to record are two children run over by the wheels of a tramway car: happily neither are fatal cases. One young gentleman let his cane fall too heavily on the head of a dusky virgin who had baptized him with an extra quantity of water, and was very properly find sixty pats, which, added to his other Carnival expenses, will prevent his paying his tailor's bill for some time.

The *Standard* complained of the great length of the Corso in Buenos Aires. Our authorities made the same mistake, and the consequences were that there was not sufficient animation to spread over such a long route, and not money enough to embellish so many squares. The corso then was a fiasco, which is a pity, for it is, or ought to be, the best part of Carnival.

On the other hand, the balls were really magnificent, particularly those of the aristocratic Club Social. The character dresses at the last ball were really worthy of admiration, and some of the characters very well got up.

There was abundance of amusement for the lower classes in the theatres, where masked balls were the rage, and where, it is a noticeable fact, great order prevailed. In fact, the only scandal of the three days was perpetrated by the commissaries and the police, who arbitrarily took up some 40 young men who were playing legitimately with their 'pomos,' attacking the fair inmates of the carriages. When taken to the Gefatura Dr. Gonzalez, the Gefe, immediately discharged them, telling them to return and act as they pleased, and, I understand, reprimanded the commissaries. These are things we have to submit to as long as these political beadles are allowed to believe that their rod of office gives them full authority to maltreat the citizens. In Rosario we are particularly unfortunate in this respect. Our police authorities, as a general rule, have been ignorant ruffians, who entertain the same antipathy to the respectable classes as Rosas' black Federals to the Unitarios, We have great hopes, however, that our new Gefe Politico, who is a gentleman by birth, breeding and position, will liberate the city from the domination of insolent 'caciques,' engendered and fostered by our old friend, Mr. Bayo, who was a good type of the tyraut Rosas, in all except the intelligence of the latter.

I did not see the future Governor of the province during Carnival. He has probably returned to Santa Fe to help to enliven the Carnival up there. Dr. Zaballa, notwithstanding his sacerdotal toga, enjoys fun like any schoolboy home for the holidays.

Speaking of Dr. Zaballa, I will give you an idea of the length that party spirit goes to in this province. The liberal party that for some years back has not been allowed to vote, feel inclined to look with some degree of faith on the candidature of Dr. Zaballa, and consequently do not oppose it. In fact the "Capital" accepts it frankly, as it sees through this course a chance of the liberal party regaining its political rights. The dominant party is wildly savage at this. They wont let the liberals have any thing to do with the election of Dr. Zaballa, for fear of losing their own prestige, and loving an excuse for maltreating political opponents. The "Independiente" of yesterday has an article worthy of Marat, inciting his party not to allow the Liberals to interfere in the elections, even were it for the purpose of voting for their own candidate Dr. Zaballa. It is impossible for brutal political fanaticism to go further than this.

To revert to the balls, I have just received the *Standard* of Thursday, and I fear you are becoming insensible to the charms of the gentle sex, for you say very little about them in the Carnival article. Now, our Anglo-Saxon ladies here would have liked to have heard something more about the gorgeous balls at the Plata and Progreso. The *Capital*, describing the 'social' balls, trots out the ladies and their dresses by name, and I suppose the ladies like it; but as the native penny-a liner is usually deficient in adjectives, except when he writes on politics, the description of fifty girls or so becomes very monotonous. I would advise said cronistas to study Southey, 'how the waters come down at Ladore.'

The pearl of the ball of Tuesday night was a lady personating a negress; she was stained a jet black, and kept up her character admirably for three hours. She was followed by crowds, and for every one she had some sparkling jest or smart repartee, sometimes in prose and oftener in improvised verse. And the best of it is she preserved her incognito, and is even now the object of a speculative curiosity. I believe she is the wife of a Spanish physician, and rather celebrated for her 'spiritualite'

Talking of verses, here are some sent by a young gentleman to his lady love, with flowers for the ball—

Accept this here my dearest Miss,
Which I do send to you;
The Bouquet cost a dollar,
The Holder cost me two.
But what of that, 'tis nothing much,
For one and two make three;
And for a gal I love like you,
By Gosh I'd go a 'V.'

There are to be no less than six balls more between this and Sunday. The two clubs give one each. Mr Ibarlucia and Mr Alvarez give what they modestly call tertulias, but what we should call balls; and the two theatres give an affectionate invitation to all the servant girls and 'chinas' in Rosario, provided the very ugly ones come in masks.

Can the *Standard* inform us when Lent really commences in this country?

FOR LENT
Moore & Tudor's
Fresh Gulf Shrimps, the most delicious novelty in preserved fish.
Read the unaltered and unabridged report of the packer below.

The shell is removed and canned 'au naturel, ready or the table put up in tins, two dozen in a box. Thoroughly cooked, and ready to be served as a Shrimp Salad.—The fresh Gulf Shrimps 'canned by our process' is one of the finest and most delicate entremets that can be offered at lunches and private suppers, or in families as a supplemental dish at breakfast or dinner, being sufficently cooked, can be seasoned and served on the moment. Our Shrimps are put up natural, cooked in linen sacks, and thereby kept from direct contact with the tin. By this process their purity, original freshness and flavor is retained. On emptying from the sack, may be rinsed off in fresh water.

Are oftener eaten as they are, cold, with or without seasoning, made up from the castor to suit your taste, than any other way. They relish admirably in a mayonnaise, also with all the usual green salads—each in their season—such as: Sweet Bell Pepper, Lettuce, Water Cresses, Celery, Raw Tomatoes, &c., &c. They garnish handsomely a boiled fish, and relish well with it. In warm cookery, a well seasoned sauce or gravy made to taste with or without Tomato, and the Shrimp added about the time of dishing, so as to become warmed without additional cooking, are very fine. Also for stuffing Tomatoes, Egg Plants, &c., in short there is no way in which they cannot be eaten with pleasure—avoiding, as far as convenient, any material additional cooking, for the reason that they may soften which somewhat detracts from their appearance, and their delicate flavor is partially lost trace of in the mixture. Our fresh Gulf Shrimp need no further cooking, but are ready for the table. Sold by best family grocers generally.

Postal Service

Address of Printed Matter

The handling and throwing about of the mail bags in course of transmission frequently loosens the packages of newspapers and displaces the wrapper with the address, thus leaving them without any, unless it be written on the newspaper itself.

This happens most frequently on long voyages, and thus, very often, a considerable number of books and newspapers arrive by the European steamers without any address whatever, and wrappers so damaged that it is impossible to tell to what papers they belong.

The Administration of the Post Office, being anxious to avoid an agglomeration of printed matter without address, begs the Public—

1st—Always to write the address on the newspaper, or other package, itself, as well as on the wrapper, and ti it crosswise with strong twine, it there be more than one book or newspaper.

2nd—To ask their correspondents at home and abroad to be kind enough to do likewise.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palhative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1866) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
